Dear Madam,

In response to your mail in reference to 102912/CFL/EMPD/JD of July 05, concerning the extension to US of the patent FR 00 06 957 deposited the May 30, 2000, and following my telephone conversation of September 14 with Mr. De Fay, I inform you that after consultation of Mr. Romain DURAND, we decided not to comply with your request.

Sincerely yours

OFFICE OF PETITIONS

Hello Jean Luc,

Following your mail below, we had a telephone conversation on September 14, 2001. The file relates to the patent application reference 102912 filed May 30, 2000, N° FR0006957. The Intellectual Property Department from Alcatel asks in their letter that you sign the papers necessary to file the application abroad. You had said to me, at the time of our conversation, that you would send a message (to Mrs. Josiane Demarly) to make known your decision. We await your answer quickly.

In your message below, you wrote: ... "to know the financial reward associated with the authorization with request with extension...." According to the Alcatel policy, there are no financial rewards upon filing abroad; nor financial rewards for authorizing the filing abroad.

You will find below, in the form of a summary, the two levels of incentive payments for patents at Alcatel:

- the first payment at the time of the first application (N°1 payment); for us in France, it is generally the French application.
- the second payment, under certain conditions (filing in at least three countries, issuance of a patent by a country after examination), at the time of delivery of the patent by the foreign patent agent (N°2 Premium)

As a paid Alcatel Business System (A.BS) employee, you received the first payment (date of filing May 30, 2000, date of your departure: end of July 2000).

As an ex-employee of A.BS, and taking into account the current rules in force, you will not be able to claim with the second payment (If all goes well for the application, one can expect the first grant no earlier than the middle of 2003)

Hello Xavier,

I hope that the patents of Alcatel go well.

I allow myself to write this message to you because I received a few weeks ago a request emanating from Alcatel Intellectual Property Department (Josiane DEMARLY) asking me to sign a document for filing abroad the one of the patents which I had made with Romain Durand entitled "METHOD AND APPARATUS FOR BLOCKING AN OPERATION INVOLVING TWO IDENTIFIERS".

OFFICE OF PETITIONS

Romain Durand already signed the document and I was in communication with Mrs. Demarly to know the financial conditions associated with the authorization of filing abroad. I am advised to address my question directly to you as to whether special circumstances apply here.

Therefore, if you have information to communicate to Romain and to myself on this subject, I thank you for agreeing to share it with us.

In advance, I thank you for treating my request.

Very cordially.
